RDX Series™

Designed for heavy-duty, everyday use.

Improving productivity, responding quickly to incidents and enhancing safety are leading reasons why security companies use Motorola business two-way radios. Convenient and economical – they're easy to use – the key to improving security team coordination and response time.

Instant communication in Security means:

- Seamless security team coordination
- Smoother shift changes
- Quick coordination and response to emergencies
- Immediate location updates
- Better use of limited personnel and resources.
- Enhanced safety and security
- Reduced operational costs
- Increased overall service and satisfaction
- Reduced monthly operating costs

- NO CONTRACTS
- NO MONTHLY FEES
- NO PER-CALL CHARGES
- NO INFRASTRUCTURE REQUIRED

Security Challenges	Two-way Radio Solutions
Shortage of trained security personnel, and a mobile workforce, you need to get more done with less.	Business two-way radios keep security teams connected and productive, making better use of limited time and resources.
Rising crime rates, and terror alerts are driving an increased demand for security services.	Instant communication enables security personnel to respond faster when thefts, disturbances, or incidents occur.
Rising interest in corporate and commercial security measures.	Security teams can mobilize quickly whether monitoring loss prevention at a mall, maintaining order at a sports event, or monitoring industrial facilities or school events.
Thinner profit margins.	Business radios are economical, with no per-call charges.
Technology plays a growing role in security.	Security teams and surveillance technicians stay in contact.

Rugged and Water Resistant

Durable metal diecast chassis helps radios hold up under demanding conditions.

Power and Coverage*

2 Watt RDX Series radios provide coverage of up to 250,000 square feet, 20 floors – 4/5 Watt models cover up to 350,000 square feet, 30 floors.

Flexible Battery Life Solutions**

2 Watt radios feature the standard Li-ion battery (up to 12 hours of life per charge). 4/5 Watt radios feature the ultra high capacity battery (up to 18.5 hours per charge). An alkaline battery kit is available as an optional accessory (up to 26 hours per charge).

Accessories

Motorola offers a full complement of accessories for customizing radios to suit user needs.

A Motorola business two-way radio can pay for itself in less than 2 months.

If each worker saves 5 minutes per hour, watch your savings multiply...

Hourly rate including benefits	Each radio pays for itself in...	Annual savings for 10 workers
\$12 per hour	24 days	\$21,000
\$18 per hour	12 days	\$42,000

Based on calculations using MSRP of \$189 for a two-way radio and on the hypothetical hourly wages of an employee or worker.

MOTOROLA MEANS BUSINESS

With 75 years of innovation and engineering expertise, it's no wonder that Motorola is a world leader in providing small business on-site, two-way radio communication solutions.

*Coverage will vary based on terrain, conditions and radio model.
**Battery save feature must be activated for optimal battery life.
